Hardware

THIS Hardware Catalog is made up of pages taken from our big General Catalog No. 138. This explains why references are sometimes made to pages not found in this Hardware Catalog. In order to show a complete line of lathes and drills, we have included a few pages not found in our Big Catalog.

WE REQUIRE cash with order. The best ways to send money are in the form of an express money order, postoffice money order, a bank draft, your personal check or currency in a registered letter.

To find what you want see the index on pages 1114A to 1117A.

Freight and Express Rates Are on Pages 1112A and 1113A.

Wood Working Machinery

for Contractors, Builders, Carpenters, Cabinet and Wagon Makers

22-Inch Swing Band Saw Machine

With Stand, for Power Only.

DESCRIPTION.

Tilting Table for sawing bevels, made of cast iron, planed true. Size, 14 $\frac{1}{2}$ x17 $\frac{1}{2}$ inches and stands 40 inches from floor. Saw Guides are adjustable and have ball bearing. Upper guide has improved ball bearing discs and can be raised to saw material up to 7 inches thick. Swing—22 inches capacity to cut to center of 44-inch circle.

Wheels are 22 inches in diameter by 1 $\frac{1}{2}$ -inch face and have endless rubber bands for saw to run on. Upper wheel has tilting adjustment on top bar for leading saw with proper tension against the guide. Also has hand wheel adjustment for regulating the tension on the saw. Can be adjusted to take saws 12 feet to 12 feet 6 inches long. Shafting—Cold rolled steel, 1 inch in diameter. Bearings—3 inches wide, full babbitted with high quality babbitt.

Shipping weight, 260 pounds. Approximate floor space, width, 2 feet 8 inches; length, 2 feet 8 inches. Tight and loose pulley, 8-inch diameter by 3-inch face. Speed, 550 R. P. M. Power, 1 to 2 H. P.

99R8132 $\frac{1}{2}$
22-Inch Swing Band Saw Machine with Stand, as illustrated and described, with one $\frac{3}{8}$ -inch band saw and belt shifter, but without table shown in outline in illustration.

Price, complete **\$44.50**

\$44⁵⁰

Table Shown in Outline Not Included, But Shown Only as a Suggestion for Work Table.

All Goods on This Page Shipped Direct From Factory at Cincinnati, Ohio. Shipment Usually Made in From 5 to 10 Days After Order Is Received.

Swing Cut-Off Saw

For Power Only.

Swing cut-off saws are great labor savers, especially in cutting long material of large dimension. One man can lay the work in position to get any special cut desired. The swinging frame being short and rigid gives a clean square cut with but little effort on the part of the operator. Cuts a 1-inch board 20 inches wide or a 3-inch plank 15 inches wide. Saw swings back below table surface out of the way, or by means of an adjustable stop, can be set to swing back just far enough to clear the work being done.

DESCRIPTION.

Frame, 1 $\frac{1}{2}$ -inch angle steel, securely bolted together.

Saw Table, 26 inches wide by 24 inches long and has an adjustable bracket on each side to bolt on extensions for making an wide table as desired for convenience in cutting off long material. Height is variable to suit the work, extreme height being 32 inches.

Saw Mandrel, 1 inch in diameter with 3x3-inch pulley, takes saws with $\frac{3}{8}$ -inch hole.

Countershaft, 1 inch in diameter with 8x3-inch tight and loose pulley. Hand Lever for pulling saw through the work.

Shpg. Wt.	Floor Space Required	Tight and Loose Pulley	Speed	Power
250 lbs.	Width 2 ft. 2 in. Length 2 ft. 2 in. by 2 ft.	8-inch diameter by 3-inch face	600 R. P. M.	2 H. P.

99R8150 $\frac{1}{2}$ —Swing Cut-Off Saw, as illustrated and described, with one 12-inch saw and one 3-inch belt. Price, complete. **\$32.00**

Our Wagon Shop Special

For Power Only.

\$190⁰⁰

DESCRIPTION.

Saw Table—Heavy angle and channel steel, ground to uniform level and true surface. Height, 2 feet 9 $\frac{1}{2}$ inches; width, 27 inches; overhangs base on left side 10 $\frac{1}{2}$ inches. Length, 3 feet. Table hinged at back to raise or lower for regulating depth of cut. Has opening for 14-inch saw, which will cut up to 5 inches deep.

Band Saw—22-inch swing and ball bearing guides. Will saw material up to 7 inches thick. Tilting table stands 40 inches high and is 14 $\frac{1}{2}$ inches wide by 17 $\frac{1}{2}$ inches long.

Jointer—12-in. with square head, two knives and wood spring to hold down material. Has hand wheel screws for regulating depth of cut. Felloe Boring and Spoke Tenoning Attachment with $\frac{5}{8}$ -inch boring bit. Chucks for round and square shank bits and hollow auger to cut 1 $\frac{1}{2}$ inches with $\frac{5}{8}$ and $\frac{3}{8}$ -inch bushings.

Rounder and Edge Molder with two heads and two pairs of knives.

Tilting Guide for jointer or rip saw, tilts to angle of 45 degrees and is adjustable from 0 to 17 inches.

Crosscut Guide slides in milled groove. Has angle adjustment of 45 degrees and adjustable stop for cutting to lengths. Saw Mandrel—Double ended, 1 $\frac{3}{8}$ inches in diameter, 37 $\frac{1}{2}$ inches long. Right and left hand threads; left end, 4 $\frac{1}{2}$ inches long; right end, 5 $\frac{1}{2}$ inches long.

Shipping wt., 755 lbs. Approximate floor space, width, 7 ft. 9 in.; length, 6 ft. 5 in. Tight and loose pulley, 10-in. diameter by 4-in. face. Speed, 600 R. P. M. Power, 2 to 4 H. P.

99R8112 $\frac{1}{2}$ —Price, with one 12-inch rip saw, one 10-inch crosscut saw, one $\frac{3}{8}$ -inch band saw **\$190.00** and one 4-inch and one 3-inch belt.

Upright Hollow Chisel Mortising and Boring Machine

FOR POWER ONLY
\$56⁰⁰

In wagon and woodworking shops where there is a considerable amount of mortising and heavy boring required, this machine will enable you to turn out the work in half the time. The upright mortising and boring features enable the operator to see exactly what he is doing without bending over the work. Saves time and enables the operator to turn out better and more accurate work. Makes mortises from 1/4 inch up to as large as required by repeating the cuts, and up to 3 inches deep, up to 45 degrees. A

Mortises can be made at any angle machine that will give good service and is guaranteed to be satisfactory in use.

DESCRIPTION.

Frame. 2-inch angle steel, securely bolted and riveted together.

Bedplate tilts to 45 degrees and is adjustable to and from the stand, and will take in 3 inches to center of bit. **Chuck** takes hollow chisel bits from 1/4 to 3/4 inch and boring bits with 1/2-inch round shank from 1/4 to 2 inches.

Foot Treadle gives powerful positive pull, forcing hollow chisel or boring bit into the wood.

Shipped direct from factory at CINCINNATI, OHIO.

6-Inch Swing Combination Lathe Set and Grinder

\$6⁸⁰

This Combination Lathe Set and Grinder is an excellent machine for light and medium work. It is very durable and as strong as any lathe of its capacity offered by anyone. The working parts are accurately made and carefully fitted. These sets are priced very low and are good value, as they do excellent work and are not easily gotten out of order.

This set consists of headstock with flanges for holding emery wheel, tailstock with adjustable sleeve, spur center, cup center, tool rest and socket, hand nuts, washers and oil cups. Spindle is steel, 5/8-inch diameter in bearings, 1/2 inch between flanges, with provision to take up wear. Bearings are 1 1/2 inches long. Takes emery wheel 6x3/4 inch with 1/2-inch hole. Lathe swings 7 inches. Belt pulley for 1 1/4-inch belt. Set consists of metal parts only. Wood bed not included. Shipped from our CHICAGO STORE and may be included with other goods. Shipping weight, about 12 pounds.

No. 99R5633 Price, including machine bolts for attaching.....\$6.80

Power Hack Saw

OUR PRICE
\$27⁰⁰

Will cut bars up to 4 inches square and is provided with gravity feed. Cuts flats, squares and rounds; wide range of feed enables even hard steel to be cut off square. Machine is especially suitable for cutting off shafting, light architectural iron, etc., up to its capacity. Stroke of saw blade, 6 inches; length, 12 inches. Size of pulley, 13 1/2 x 2 1/2 inches. Speed of pulley, 60 revolutions per minute. Price includes six 12-inch blades. Shipping weight, about 140 pounds.

No. 99R5620 Without belting.....\$27.00

Starrett's Power Hack Saw Blades. Length, 12 inches; 14 teeth to inch, 3/4 inch wide. Shipped from our CHICAGO STORE. Weight, about 1 1/4 pounds.

No. 9R5020 Per dozen.....\$1.20

Countershaft for Above Set

\$4⁵⁰

STORE: Shipping weight, about 35 pounds. No. 99R5621 Price, including lag screws and washers for attaching.....\$4.50

With 8x 2-in. drive pulley, 3 3/4 x 1 3/4 - inch tight and loose pulleys and 3/4 - inch shaft. Shipped from our CHICAGO STORE. Price, \$4.50

Foot Wheel

\$4⁹⁰

Especially designed for driving above combination lathe set, but is well adapted for running any other light machinery. Size wheel, 18 1/2 in. with 2 1/4 - in. face. Screws furnished for fastening to floor. Shipped from our CHICAGO STORE. Shipping weight, about 60 pounds. No. 99R5640 Price, \$4.90

Rip and Crosscut Saw, Mortising, Tenoning and Boring Machine

FOR POWER ONLY
\$126⁰⁰

For Our Complete Line of Wood Working Machinery Write for Our Wood Working Machinery Catalog.

A large number of carpenters and cabinetmakers who are making a specialty of screen frames, special doors, cupboards, furniture and fine cabinet work that requires a mortise for putting together, have long felt the need of a low priced mortising and tenoning machine. This machine will make mortises from 1/4 inch up and cut both sides of the tenon in one operation. Turns out clean, accurate work of a uniform size, and has close adjustment, which insures the tenon fitting snug into the mortise. This machine is fully guaranteed to turn out satisfactory work.

DESCRIPTION.

Frame. Heavy 2-inch angle steel, securely bolted together. 2x10-inch base timbers, 5 feet long, set 2 feet apart.

Saw Table. Heavy angle and channel steel, ground to a uniformly level and true surface. Height, 2 feet 9 1/2 inches; width, 27 inches; overhangs base on left side 10 1/2 inches. Length, 3 feet. Table is hinged at back to raise or lower for regulating depth of cut. Has opening for a 14-inch saw which will cut up to 5 inches deep.

Tenoning Attachment. Cuts tenons up to 1 3/4 inches wide and up to 3 1/2 inches deep. Thickness of tenon is regulated by collars placed between the saws. Material is held firmly in place by hand wheel clamps. Has side adjustment for cutting tenon the desired distance from the face of the material, and vertical adjustable stop for gauging the length of tenon.

Shipped direct from factory at CINCINNATI, OHIO.

\$266⁰⁰

5-Foot Bed

13-Inch Expert Screw Cutting Engine Lathe

Automatic Longitudinal Feed, Automatic Cross Feed and Compound Rest

Equipment Furnished as Illustrated.

A practical lathe for the garage and small machine shop. Blacksmiths and automobile repair men can increase their profits by doing their own lathe work. For medium size work we recommend our 13-inch lathes. For heavy work the 15 and 16-inch sizes will prove more satisfactory.

SPECIFICATIONS.

Bed is rigid. Cross ribbed by heavy box braces cast in at short intervals throughout its entire length. Has three V's and one flat way for guiding headstock, tailstock and carriage. Rack is of steel cut from the solid bar.

Headstock, equipped with reverse. Cone has four steps for 1½-inch belt which, with back gears, gives eight changes of spindle speed. Spindle is of special carbon steel with ¼-inch hole its entire length. Centers are No. 3 Morse taper. Bearings are phosphor bronze with ample oiling facilities and are adjustable for wear.

Tailstock is offset to allow compound rest to swivel parallel to bed and is provided with set-over for turning taper. Tailstock center is self ejecting.

Carriage has T slots for clamping work for milling and boring. Both automatic cross feed and automatic longitudinal feed are oper-

ated from front of apron and but one feed can be engaged at a time. Both feeds are driven by the splined lead screw and work so that the thread of the lead screw is used for screw cutting only.

Thread Cutting. Lathe is indexed to cut standard threads from 4 to 40, right or left, including 11½ pipe thread.

Graduation. Compound rest is graduated in degrees. Cross feed screw has graduated micrometer collar reading in one-thousandths of an inch.

Equipment (as shown in illustration) is included in the price and consists of large and small face plates, compound rest, two steel centers, center rest, follower rest, change gears, adjustable stop for screw cutting, feed gears, gear guards, necessary wrenches and a double friction countershaft.

15-Inch Expert Screw Cutting Engine Lathe

Automatic Longitudinal Feed, Automatic Cross Feed and Compound Rest

Equipment Furnished as Illustrated.

\$345⁰⁰

6-Foot Bed

A popular size lathe for the machine shop and automobile repair shop. In fact, many manufacturers have found it economical to purchase a 15-inch lathe for their smaller size work, thus leaving their heavier lathes free for their heaviest work.

SPECIFICATIONS.

Bed is rigid. Cross ribbed by heavy box braces cast in at short intervals throughout its entire length. Has three V's and one flat way for guiding headstock, tailstock and carriage. Rack is of steel cut from the solid bar.

Headstock, equipped with reverse. Cone has four steps for 1 $\frac{1}{4}$ -inch belt which, with back gears, gives eight changes of spindle speed. Spindle is of special carbon steel with 1 $\frac{1}{8}$ -inch hole its entire length. Centers are No. 3 Morse taper. Bearings are phosphor bronze with ample oiling facilities and are adjustable for wear.

Tailstock is offset to allow compound rest to swivel parallel to bed and is provided with set-over for turning taper. Tailstock center is self ejecting.

Carriage has T slots for clamping work for milling and boring. Both automatic cross feed and automatic longitudinal feed are operated

from front of apron and but one feed can be engaged at a time. Both feeds are driven by the splined lead screw and work so that the thread of the lead screw is used for screw cutting only.

Thread Cutting. Lathe is indexed to cut standard threads from 4 to 40, right or left, including 11 $\frac{1}{2}$ pipe thread.

Graduation. Compound rest is graduated in degrees. Cross feed screw has graduated micrometer collar reading in one-thousandths of an inch.

Equipment (as shown in illustration) is included in the price and consists of large and small face plates, compound rest, two steel centers, center rest, follower rest, change gears, adjustable stop for screw cutting, feed gears, gear guards, necessary wrenches and a double friction countershaft.

ACCESSORIES FOR EXPERT LATHES

Independent Lathe Chucks With Four Independent Reversible Jaws.

This chuck has four solid jaws with half nut, reversible by running out of chuck at the periphery, and turning end for end. The jaws are hardened and have raised and ground steps. The face of chuck is ground true to straight edge and is accurately graduated in inches. Made with hardened steel bearings for the screws. Price includes chuck, chuck plate and wrench.

As all chucks must be fitted to lathes, we do not accept orders for chucks only. When chucks are ordered with lathe we furnish plate and fit same to both chuck and lathe without extra charge, as per prices below.

Our Most Popular Washing Machine

The High Speed Wizard, \$15⁷⁵

We have sold thousands of the High Speed Wizard Washing Machines. One of your friends or neighbors no doubt already has one and will be glad to tell you about it. If not, bear in mind that we have sold more High Speed Wizard Washing Machines than of any other brand and that it is the most successful hand operated washing machine we ever sold.

The High Speed Wizard Washing Machine will wash the clothes clean. The inside and bottom of the tub is corrugated. The dolly or dasher rotates a three-quarter revolution each way. This action cleans the clothes very rapidly and thoroughly.

The High Speed Wizard Washing Machine will run easily. The flywheel revolves at high speed when the operating handle is moved back and forth, or up and down, depending on which socket the handle is placed in. The momentum of the high speed flywheel enables you to keep the machine in motion with but little effort. One socket holds the operating handle in just the right position to work while in standing position. The other socket holds the handle in just the right position to work while sitting. This enables you to do a great deal of the washing without being on your feet.

The High Speed Wizard Washing Machine will give good service. By this we mean everything that the term "good service" implies. The tub is made of selected lumber that is especially adapted for making washing machine tubs and is assembled and bound in a substantial manner. The gearing is made from well designed casting molds from machined brass patterns and all gears run on steel shafting, insuring smooth action and easy, quiet running. The parts are interchangeable, and you can get repairs at any time should they be needed. Any part proving defective or giving poor service will be replaced without any charge to you.

Let us prove it. Order a High Speed Wizard Washing Machine and enclose our catalog price. When you receive the washer, try it out for thirty days. Use it every day if you like. If you are not entirely satisfied you can send it back at our expense and every penny you paid out for the machine, including freight and cartage on it, will be returned to you. Full directions furnished so that you will understand how to use the machine even though you never used one before. The tub measures 22³/₄ inches inside diameter at the bottom, 21¹/₂ inches at the top and 12 inches deep inside. Standard family size of six-sheet capacity. Fitted with wringer board to which wringer can be attached. Cover is of two-ply construction, securely hinged to the tub and will not split or warp. Shipped from CHICAGO. Shipping weight, 90 pounds.

44R7513¹/₄—High Speed Wizard Washing Machine. Price.....\$15.75

Wizard Power Washer, \$16⁵⁰

The Wizard Power Washing Machine is a development of the High Speed Wizard Washer, but the working parts are heavier and so arranged that lid can be raised without removing belt from pulley. Has tight and loose pulleys, 8 inches in diameter and 2¹/₂-inch face and an adjustable belt shifter. Should be driven at 175 to 200 revolutions per minute. Hardwood wringer board is provided so hand operated wringer can be attached. Tub is full size, measuring 22³/₄ inches in diameter and 12 inches deep inside and is made of selected lumber. Standard family size of six-sheet capacity. Furnished with complete directions for use. Shipped from CHICAGO. Shipping weight, 95 lbs.

44R7537¹/₄—Wizard Power Washing Machine for engine operation. Price.....\$16.50

Improved Golden Crown Washer

\$9⁸⁵

The old Golden Crown Rotary Washer ranks next to our High Speed Wizard Washer in popularity so far as hand operated machines are concerned and this improved model will be no exception. The improved gearing is more simple in design and contains fewer parts than the old model. The tub is made of selected lumber, measures 23¹/₄x12 inches inside, and is finely finished in natural wood. Gearing is finished in aluminum bronze. Capacity, six sheets. Turning the flywheel continually in one direction causes the dolly inside the tub to turn three-quarter revolution and then automatically reverse. Provided with box to which a hand wringer can be attached. Prompt shipment from factory in NEW YORK or from our CHICAGO store. Shipping weight, 85 pounds.

44R7526¹/₄—Golden Crown Washing Machine. Price.....\$9.85

Water Power Washing Machine

\$16⁷⁵

To use a water power washing machine it is necessary that the water in your home be supplied from a pumping system of some kind at a pressure of not less than 15 to 20 pounds to the square inch and a flow of 4 to 6 gallons per minute.

The tub is made of lumber that is especially adapted for washing machine construction and measures 22³/₄ inches in diameter at bottom and 12 inches deep inside. Sides and bottom are corrugated. Wringer box provided for attaching hand wringer. Capacity, six sheets. The dolly slides up and down on the post, according to the quantity of clothes in the tub, and rotates back and forth when the machine is in operation.

The Water Witch Motor is of the gearless type, and is very simple. Inlet hose is provided with a standard hose coupling so machine can be connected to any threaded faucet. Outlet hose has anti-splasher weight, which prevents splashing. Full directions for use furnished with each machine. Shipping weight, 70 pounds. Shipped from our CHICAGO store or factory in NEW YORK STATE.

44R7518¹/₄—Water Witch Water Power Washing Machine. Price.....\$16.75

44R7519—Smooth Faucet Hose Attachment. A device threaded for standard hose coupling and provided with rubber packing that slips on a smooth faucet, enabling you to connect hose to any standard smooth faucet. Price.....65c

44R7530¹/₄—The Quick and Easy Washer is an exceptionally well made machine of this very popular open type. Measures 19x28¹/₂x14 inches inside. Shipped from CHICAGO. Shipping weight, 50 lbs. Price.....\$4.65

Liberty Power Washing Machine

With Swinging Wringer

The most successful power washing machine we ever sold. It is built extra strong in every part so it will stand up under hard use. The tub measures 22 $\frac{3}{4}$ x 12 inches, inside measure, and is made of selected washing machine lumber. It is nicely corrugated inside and is fitted with brass drain faucet threaded so hose can be attached. Standard family size of six-sheet capacity.

The washing is accomplished by the time proved rotary wood dolly movement.

The mechanism is made up of smooth, heavy castings and is simple in design. The five pulley and gears are mounted on a single large casting securely attached to the steel base. This does away with the necessity of depending on the tub to support the working parts. Raising the lid stops the washing mechanism, thus eliminating the use of clutches or belt shifting devices. But one drive pulley is needed, and this measures 10 inches in diameter, $\frac{1}{4}$ -inch face and should be driven 200 revolutions per minute.

The power driven wringer can be swung into any position so you can wring the clothes from the washer, rinse or bluing tubs. The wringer swings easily and is locked in position by a set screw with hand wheel. Wringer drive is very simple, a slight movement of the lever being sufficient to start, stop or reverse the movement of the 10x $\frac{1}{2}$ -inch rolls of extra grade white rubber, securely vulcanized on the shafts. Can be used conveniently with stationary laundry tubs or ordinary tubs placed on a separate bench.

We furnish this washer fitted with an engine of the two-cycle air cooled type, rated at $\frac{3}{4}$ horse-power, which has inverted cylinder. Can also be furnished without engine as quoted below. A special geared foot starter is provided which is connected through a system of gears to the crankshaft. One pressure on the foot pedal spins the engine several times and the first pressure usually starts it. All moving parts of engine are enclosed. Lubrication is taken care of by mixing oil with the gasoline. No oil cups to leak and no oil can to fuss with. Engine can be adjusted to run from 500 to 1,400 revolutions per minute while running. We use a 6-inch flanged pulley on the engine and drive the washer with a 1-inch flat belt. This makes a simple, safe and efficient drive that does not require any special knowledge to keep in order. Spark coil and switch are mounted on engine at factory. A short wire from the multiple battery to engine is all the wiring needed and is furnished with the outfit. Muffler is of the automobile type, effectively silencing the exhaust noise.

The Liberty Washer with swinging wringer and attached engine is so simple in design that any woman can start or stop it and keep it in running condition about as easily as she can care for her sewing machine.

44R7546—Liberty Washing Machine with swinging wringer and attached engine. Shipping weight, 275 pounds. Shipped from factory in NORTHEASTERN ILLINOIS. **\$84.75**

Price.....
Exhaust gases from engine should be piped outside with ordinary $\frac{3}{4}$ -inch iron pipe. Where it is not convenient to use iron pipe, we can furnish gastight flexible metal tubing.

The Allen Electric Washer

The Wizard Electric Washer

The Liberty Electric Washer

The Allen Electric Washing Machine is of the latest oscillating wood cradle type, so popular in all the big cities, and has met with wonderful success. The clothes are placed in the oval wood cradle, which swings three-quarters revolution back and forth. This dashes the clothes through the suds, cleansing them very rapidly and without wearing or tearing them or even pulling them out of shape, so you can safely wash the finest laces or heaviest blankets. The cradle is removable. Tub is of galvanized iron, hung in a wood frame securely bound together at the corners by the angles which form the legs, and these are fitted with roll easy casters so machine can be easily moved. Clothes do not come in contact with the metal. Brass faucet for draining attached to bottom. Will wash six sheets or their equivalent in other clothes at one filling.

The wringer has 11x $\frac{1}{2}$ -inch extra high grade rubber rolls and can be stopped or started in either direction by moving one little lever. Furnished complete with high grade electric motor, cord and attachment plug for connecting with any electric light socket and full directions for the use and care of machine. The machine measures 37 inches high, 24 inches wide and 26 inches long, outside measurements. Shipped from factory in SOUTHERN MICHIGAN. Shpg. wt., 225 lbs.

44R7533 $\frac{3}{8}$ —Allen Electric Washing and Wringing Machine. Price..... **\$98.50**

This is a low priced rotary dolly washer without the wringer, which will give satisfactory service so far as washing is concerned. However, we recommend the Liberty Electric Washer in preference to it, because the Liberty Washer is a stronger machine, has swinging reversible wringer and does away with all the hard work in connection with the washing and wringing of the clothes. While investing in a power washer, why not get one that does it all? Tub of the Wizard Electric measures 22 $\frac{3}{4}$ x 12 inches inside, is well made of selected washing machine lumber and is nicely corrugated inside. Dolly rotates three-quarters revolution and reverses. Furnished complete with electric motor, cord and plug ready to screw into any electric light socket. Shipped from factory in NORTHEASTERN ILLINOIS. Shpg. wt., 140 lbs.

44R7532 $\frac{1}{2}$ —Wizard Electric Washing Machine. Price..... **\$43.50**

The Liberty Electric Washer is our most popular electric washer. It operates on the time proved dolly principle and has the latest swinging wringer. The tub, made of selected washing machine lumber, measures 22 $\frac{3}{4}$ x 12 inches inside, has a capacity of six sheets, is fitted with brass drain faucet and is mounted on a well braced steel stand, as shown. The stand is fitted with casters so machine is easily moved, and as it measures only 24 inches square the machine occupies but little room. Wringer has extra quality white rubber rolls, swings in any position and can be started, reversed or stopped by a slight movement of the lever. Wringer is independent of washer movement and motor will operate washer and wringer at the same time, if desired. If you have stationary tubs this is just the machine you want. If you use ordinary tubs your rinse and blue tubs can be placed on any bench you may have, or on the separate steel bench listed in connection with our Liberty Engine Power Washing Machine shown above. Furnished complete with full directions, motor, electric cord and plug ready to connect to any electric light socket. Shipped from factory in NORTHEASTERN ILLINOIS. Shpg. wt., 225 lbs.

44R7555 $\frac{1}{2}$ —Liberty Electric Washer and Wringing Machine. Price..... **\$64.50**

Every woman knows that proper laundry equipment makes washday so much easier. The "Home Pride" is strictly a high quality outfit, each piece carefully selected for its utility. Don't waste your strength trying to work with wornout, incomplete laundry equipment. Buy a complete outfit and accomplish more with less effort. Shipping weight, about 90 pounds. Cannot be shipped by parcel post.

99R2080—Price, for complete outfit, as illustrated.....\$17.20

"Home Pride" Laundry Outfit.

Wisconsin Pattern Riveted Milk Cans.

\$5.65

8-GAL.

We recommend these cans for wagon use, but for shipping purposes we recommend our One-Piece Seamless or our Silver Steel Cans.
Made of smooth sheet steel, double seamed and riveted throughout. Neck and bowl drawn in one piece. Breast is joined to body in such a manner as to form a very strong and rigid edge. Heavy steel bottom is riveted to body. Wisconsin pattern cans are tinned and retinned, and inside seams are soldered, have full rounded breast and bottom and are easily cleaned.

99R2502 10-gallon size. Shpg. wt., about 16 lbs. Price\$5.90

99R2500 5-gallon size. Shpg. wt., about 12 lbs. Price\$4.60

"BABCOCK PATTERN" STANDARD HIGH SPEED MILK TESTING OUTFITS.

Many states now require a license of every person who operates a Babcock Tester for commercial purposes. Illustration shows 4-bottle size for milk and cream. These Milk Testers tell the exact quality of each cow's milk.

A tester is absolutely necessary when buying cows, as the quantity of milk a cow gives is not always an index of the value of the cow. Price includes bottle of acid, test bottles, brush, pipette and simple directions for making tests. Cannot be shipped by parcel post.

Silver Steel Elgin Pattern R. R. Milk Cans. \$7.30

A SANITARY MILK CAN, ONE OF THE BEST AND MOST POPULAR PATTERNS ON THE MARKET.

Built of heavy steel plate, seamed and riveted, heavily tinned and soldered so as to leave no crevices or corners to collect germs and dirt. Body and bottom rest on heavily flanged bottom hoop and are solidly riveted together. (See illustration.)

Silver Steel Cans are rigid and stiff and will stand hard usage. They are sanitary cans. Breast and bottom are full rounded which makes cleaning easy. Silver Steel Cans are guaranteed to give satisfaction.

Improved Dilution Cream Separators

\$3.65 Separates cream from milk in three to four hours; gives sweet diluted milk, which is far superior to sour milk as stock food. Saves several hours waiting for cream to rise. As water mixes with milk, cream separates and rises to top; this can be watched through gauges. Heavy tin, securely seamed and soldered. Enameled on outside. Prices include tin tubes, strainer, faucet and legs. Cannot be shipped by parcel post.

BUTTER In 3 Minutes! The "Holstein" Butter Reaper

By Actual Tests Makes Butter From Sweet or Ripened Cream in From

3 to 5 Minutes.

The peculiar construction of the dasher gives a violent action to the cream and, without breaking their granular form, quickly extracts all the butter fat particles, forming solid first quality butter in from three to five minutes' time.

Save Your Time! Save Your Strength!

Why waste valuable time using the old time slow and hard method of churning when by using modern methods you can obtain better results in but a few minutes' time.

Churn is light in weight and easy running. Can made of heavy tin plate and holds 3 1/2 gallons. Churns up to 1 1/2 gallons. Shipping weight, about 21 pounds.

99R2591—Price.....\$4.80

WITH FOUR CUTTERS.

PURITAN FOOD CHOPPERS

Why the Puritan Chopper Is Popular. It has a heavy one-piece barrel, straight ribbed inside, a cylinder which fits snugly against the straight ribs and with a scissors-like action cuts the food which makes turning easy. One-piece body without joints, makes cleaning easy. All exposed parts coated with tin to prevent rust.
 The Puritan Food Chopper will cut any article of food intended for table use—meats, vegetables or fruits. Each machine has four knives or cutters, one each, coarse, medium and fine, and a nut butter cutter.

Atlas U. S. Standard Scales

A scale to be of any value must weigh accurately on all weights up to its capacity. Should wear take place in any of the bearing points it will render the scale inaccurate. All bearing points should be made of material that will resist wear. Construction and adjustments must be of a type that the Government has approved. All Atlas Scales are guaranteed to meet the requirements of inspection by any Government authorized sealer of weights in any state of the United States and to be free from defective material and workmanship. A scale that does not come up to these requirements is of no value as a weighing machine. Order an Atlas of any type and if it is not satisfactory in every way, send it back and we will return every cent of your money, including freight charges you paid. All Atlas Scales are shipped from factory in SOUTHEASTERN MICHIGAN.

Atlas Portable Scales

Atlas Scale Beams are solid brass. The beams for 600 and 1,000-pound capacity are marked by 1/4 lb. to 50 lbs. On the larger sizes by 1/2 lb. to 100 lbs.

Atlas Pit Scale

The scale requires a pit 22 inches deep in which the scale is mounted and the platform is then level with the surrounding ground. Beam boxes are well made, painted and fitted with good lock and key. Building plans and directions included. Weight beams are solid brass. Upper bar of the double beam

is marked to 1,000 pounds by 5-pound marks; lower bar by 500-pound notches to 9,000 pounds.

The triple beam has upper bar marked to 2,000 pounds by 10-pound marks, lower bar to 500 pounds by 5-pound marks and the middle bar to 9,000 pounds by 100-pound notches. The 8-ton has one loose weight for weighing between 5 and 8 tons. Platform size is 8x14 feet. Lumber for platform and frame is not included at prices shown.

Triple Beam Atlas Pit
Scale. Shipping weight,
800 pounds. Price.....\$127.50

Atlas Pitless Scale

The levers under the platform are T shape steel beams. The bearing pivots are of hardened tool steel and rest in hard bearing loops, which mean long life and an accurate sensitive bearing. Weight beams are solid brass. Upper bar of the double beam is marked to 1,000 pounds by 5-pound marks; lower bar by 500-pound notches to 9,000 pounds, capacity of scale.

The triple beam has upper bar marked to 2,000 pounds by 10-pound marks, the lower bar to 500 pounds by 5-pound marks and the middle bar to 9,000 pounds by 100-pound notches; heavy steel I beams securely tied together by iron pipe and special locknuts make a rigid steel frame on which the wood platform is mounted. Furnished complete with painted beam box and full directions. Lumber for frame and platform not included.

99R8431 1/2—5-Ton Pitless Scale. Furnished for wood ends, with double beam. Shipping weight, 900 pounds. Price.....\$95.00

BUTTER Our Price,
\$4.80

in 3 Minutes!
The "Holstein"
Butter Reaper.

By Actual Tests
Makes Butter From
Sweet or Ripened
Cream in From

3 to 5
Minutes.

The peculiar con-
struction of the
dasher gives a vio-
lent action to the
cream and, without
breaking their
granular form,
quickly extracts all
the butter fat parti-
cles, forming solid
first quality butter
in from three to five
minutes' time.

Save Your Time! Save Your Strength!

Why waste valuable time using the old time slow
and hard method of churning when by using mod-
ern methods you can obtain better results in but a
few minutes' time?
Churn is light in weight and easy running. Can
made of heavy tin plate and holds 3 1/2 gallons.
Churns up to 1 1/2 gallons. Shipping weight, about
21 pounds.

Standard Barn Door Hangers With Track.

\$130 For 4-foot doors. Price includes necessary bolts and screws for putting up. Hangers are strong and serviceable and are fitted with safety attachment, which prevents their jumping the track. Wheel is 3 1/2 inches in diameter and runs on steel roller bearings. Track made of round edge steel, size 1 1/2 x 1/4 inches. Complete with brackets.

99R4465—For 4-foot doors. Price includes one pair hangers, 8 feet of track with necessary bolts and screws for putting up. Shpg. wt., about 14 lbs. Price, complete...**\$1.30**

99R4466—For 6-foot doors. Price includes one pair hangers, 12 feet of track with necessary bolts and screws for putting up. Shpg. wt., about 19 lbs. Price, complete...**\$1.65**

Roller Bearing Barn Door Hangers With Track.

\$190 For 6-foot doors. Price includes necessary bolts and screws for putting up. Hangers have cold rolled steel axles and anti-friction bearings, fully covered to protect them from the weather. With the exception of the wheel, hangers are made entirely of steel. Track made of round edge steel, size 1 1/2 x 1/4 inches. Complete with brackets.

99R4472—For 6-foot doors. Price includes one pair hangers; size of frame 6x10 1/4 inches, with 3 1/2-inch wheel; 12 feet of track with necessary bolts and screws for putting up. Shipping weight, about 17 lbs. Price, complete...**\$1.90**

99R4473—For 8-foot doors. Price includes one pair hangers; size of frame 6x12 inches with 3 1/2-inch wheel; 16 feet of track with necessary bolts and screws for putting up. Shipping weight, about 23 lbs. Price, complete...**\$2.55**

Anti-Friction Barn Door Hangers With Track.

\$275 For 8-foot doors. Price includes necessary bolts and screws for putting up. Hangers are made entirely of steel except the wheel, and are fully covered to protect wheels from snow and ice. Run smoothly and are built to stand hard service. Wheels have a deep groove to prevent jumping the track. Track is heavy and strong, made of 1 1/2 x 1/4-inch round edge steel, complete with brackets.

99R4475—For 8-foot doors. Price includes one pair hangers; size of frame 6x10 1/4 inches, with 3-inch wheel; 16 feet of track with necessary bolts and screws for putting up. Shipping weight, about 28 pounds. Price, complete...**\$2.75**

99R4476—For 10-foot doors. Price includes one pair hangers; size of frame 6x12 1/4 inches, with 4-inch wheel; 20 feet of track with necessary bolts and screws for putting up. Shipping weight, about 34 lbs. Price, complete...**\$3.25**

Rockwell Hinge Joint Barn Door Hangers With Track.

\$280 For 10-ft. doors. Price includes necessary bolts and screws for putting up. Hangers have hinge joint which prevents binding when door is swung in or out. Are made entirely of steel, except the wheel; have steel roller bearings and hood to protect wheel from storms. Suitable for doors 1 1/2 inches thick. Track is heavy and strong, made of 1 1/2 x 1/4-inch round edge steel, complete with brackets.

99R4479—For 8-foot doors. Price includes one pair hangers; 16 feet of track with necessary bolts and screws for putting up. Shpg. wt., abt. 25 lbs. Price, complete...**\$2.45**

SEARS, ROEBUCK AND CO. Chicago

CRYSTALLINE FARM BELLS.

Every farm, no matter how small, should have a good bell. Our bells are standard in every detail and are unexcelled for service. The metal in crystalline bells is properly distributed to insure a clear, pleasing tone that can be heard for a long distance and tone will always remain the same as when new. Will not go flat with use. We recommend size No. 3 for use on the average farm.

Complete Hose Outfits SPELL HOSE ECONOMY

Do you realize that, aside from the great convenience and cleanliness of keeping garden hose on a reel, the life of the hose is more than doubled thereby? The reel drains the water from the hose, thus allowing it to dry inside, and pays for itself many times over.

\$25.45 Kenwood Standard Complete Hay Carrier Outfits. For steel track.

A complete outfit for a 30-foot barn consists of one hay carrier, one short time double harpoon hay fork, twelve rafter brackets, twelve hanging hooks, four floor hooks, three steel yoke knot passing pulleys, 90 feet 3/4-inch manila carrier rope, which is abundantly strong, and 35 feet 1/2-inch manila check rope. For each 5 feet additional length of barn we add two rafter brackets, two hanging hooks, 10 feet of carrier rope and 5 feet of check rope. Double angle steel track furnished with all steel track outfits; but as any farmer can make his own wood track from ordinary 4x4-inch lumber, we do not include track with wood track outfits. Manila rope larger than 1 inch cannot be used.

NOTE—Prices of outfits include enough hanging hooks and rafter brackets for barns with rafters spaced 2 1/2 feet apart. If rafters of your barn are spaced less than 2 1/2 feet apart, order enough extra brackets and hanging hooks to meet your requirements.

REGULAR FIELD AND GARDEN HOE.

Standard quality. Strong and durable. Our best hoe for general use. Tempered steel blade, 4 1/2 inches deep. Solid shank and hardwood handle. Shipping weight, about 2 pounds. 99R6830—Width of blade, 6 1/2 inches. Length of handle, 4 1/2 feet. Price70c

MORTAR A heavy, hoe, made cially for mortar and concrete. Can also be for cleaning irrigation ditches. Steel blades, 14 inches. Solid shank and hardwood handle. Shipping weight, about 4 pounds. 99R6880 Price\$1.10

Steel Cultivator Compound Lever Expander.

\$10⁴⁰

A high quality garden cultivator. Solid and rigid in construction. Has horse hoes, lever wheel, rear wheel depth regulator and outside handle braces. Lever wheel and rear wheel depth regulator enable operator to control the working depth of teeth. This enables the cultivator to run steadily and relieves the operator from strain of holding cultivator from running too deep. Teeth can be raised entirely out of ground for moving from one field to another. Lever expander widens or narrows width of cultivator to suit different widths of rows. Shipping weight, about 40 pounds.

99R6231—Price, complete.....\$10.40

"Wearwell" Steel Wheels for Farm Wagons and Trucks
 Make Strong, Practical and Economical Vehicles. Will Outwear Several Sets of Wood Wheels.
 Low wide tread steel wheels are just the thing for use on soft, spongy or freshly plowed ground. They are easy and do not cut up your field or roads. Also save useless waste of energy required to load and unmake shipment in from 5 to 10 days after order is received.

Extra Strong Wide Tread Metal Wheels
 WITH HEAVY 3/4-INCH ROUND SPOKES.
 For general all around farm and road use we recommend the purchase of our Extra Strong Wide Tread Wheels. Cheapest in the Long Run. Give full measurements, as per diagram below.

Directions for Ordering

State catalog number and height of wheel wanted. Measure axle or skein as per diagram below, taking measurements from side to side (not from top to bottom, as they wear on the under side). Give exact measurements. Do not allow for play, as we will make this allowance. Measure both front and hind skeins, as they are always the same size.

ALL OUR METAL WHEELS ARE MADE TO FIT ANY SIZE SKEIN OR AXLE.

\$5.20 AND UP No. 2 Concord or Wagon Axles.

Complete with nuts and boxes. Set consists of four axles, enough for four wheels. Short bed axles are to weld on old axles. Coached axles rounded in center. State size.

Size, Inches	Shpg. Wt., Lbs.	99R3111 Short Bed, Per Set	Shpg. Wt., Lbs.	99R3110 Long Bed, Square, Per Set	99R3109 Long Bed, Coached, Per Set

2 1/2 x 12	full sets.		330	37.45	37.20

Malleable Iron Fifth Wheels. \$1.85

Genuine Eberhard's No. 947. For double perch gears and plain axles only. We do not furnish for single perch gears, swaged or fantail axles.

99R3160—Buggy size, 10-inch circle, 1 1/4-inch head block, 1-inch axle, 3/4-inch perch. Shpg. wt., about 7 lbs. Price **\$1.85**
99R3161—Surrey size, 12-inch circle, 1 1/2-inch head block, 1 1/4-inch axle, 3/4-inch perch. Shpg. wt., about 10 lbs. Price **\$2.45**

\$4.50 AND UP Buggy, Surrey and Light Wagon Axles

Half Patent Double Collar Axle. Runs easy and has an oil retaining groove which makes frequent oiling unnecessary. State size.

Size, Inches	Shpg. Wt., Lbs.	99R3115 No. 12, Short Bed, Per Set of Four Axles	Shpg. Wt., Lbs.	99R3114 No. 11, Long Bed, Per Set of Four Axles
1 1/2 x 6 1/2	18	\$4.50	40	\$6.00
1 3/4 x 6 1/2	20	4.75	45	6.30
1 x 6 1/2	20	5.10	45	6.75
1 1/2 x 6 1/2	30	5.65	60	7.35
1 3/4 x 6 1/2	30	6.00	60	7.75
1 x 6 1/2	30	6.70	70	8.65
1 1/2 x 7	35	7.10	70	9.15
1 3/4 x 7	35	7.50	70	9.65
1 1/2 x 8	55	11.50	110	14.50

NOTE—We do not furnish boxes only, nor axles without boxes. A set of short bed axles (commonly called axle stubs) consists of four axles with short beds, which are intended to be welded to old axles. A set of long bed axles consists of four axles with beds long enough to make axle complete by welding in center. We do not weld axles. We sell one-half set at one-half or one-quarter set at one-fourth price of full set. In ordering parts of sets be sure to state whether right or left hand is wanted.

Extra Grade Rubber Tires.
 Guaranteed for quality. Size given is width of rim. Prices below do not include wires.
99R7296—Rubber Tire for 3/4-In. Rims. Weight, per foot, about 3 1/2 oz. Per foot, **1.8c**
99R7297—Rubber Tire for 1-In. Rims. Weight, per foot, about 4 1/2 oz. Per foot, **2.0c**

IMPORTANT! Read This Before Ordering!

Sarven Pattern Wheels are furnished in the white only, oil finished, not painted or varnished, and in two heights as follows:
LOW WHEELS—Fronts, 35 inches high; hind, 39 inches high.
REGULAR WHEELS—Fronts, 39 inches high; hind, 43 inches high.
 Be Sure to State Height Wanted.
 If Half Patent Double Collar Axles or Collinge Collar Long Distance Axles are ordered with wheels, we will set axle boxes in hubs for \$1.00 per set extra. We do not set boxes for No. 2 Concord Axles in hubs.
We Do Not Set Boxes to Fit Old Axles.
 If wheels are wanted with boxes set, new axles must be ordered with the wheels.
We Cannot Furnish Painted Wheels.

Sarven Pattern Buggy and Light Wagon Wheels \$17.00 TO \$26.00

COMPLETE WITH ROUND EDGE TIRES. Extra Grade Wheels.
 Our Extra Grade Wheels are well made, properly fitted and trued up. White straight grained second growth seasoned hickory spokes. Rims are screwed on each side of each spoke to prevent splitting. Have extended malleable flanges and tires bolted between spokes.
Extra Grade Wheels cost a little more than ordinary wheels, but will give you double the service and save you money in the end.

Kind of Wheels	Size of Tire, Inches	For Axles, Inches	Shpg. Wt., Lbs.	Price, per Set of Four Wheels
99R3025 Narrow Light Buggy	3/4 x 3/4	3/4 to 1 x 6 1/2	80 to 90	\$17.00

HIGH POWER TOOL GRINDERS

\$4.60

\$3.35

\$2.40

Equipped with 6x1 1/4 inch fast cutting corundum wheel of medium grit. Especially designed for use in blacksmith, machine or woodworking shops, automobile garages, railway shops, mills, farms and all places where a power driven machine is not available. The wheel attains high speed and great momentum, as the power applied to the handle is transmitted to the wheel with the least possible amount of friction. Sufficient for any use to which a hand driven machine should be put. Recommended as a tool grinder of real merit and great capacity. Axle for wheel, 1 inch in diameter. Shipping weight, about 24 pounds.

99R5538—Price.....\$4.60

Has 5x1-inch medium grit corundum wheel of high grade. Intended for grinding tools of all kinds, such as chisels, plane irons, drills, knives, etc. Suitable for general shop work and household use. Complete with tool rest and clamp for attaching machine to bench or table. Axle for wheel, 1 inch in diameter. Shipping weight, about 11 pounds.

99R5537—Price.....\$3.35

Fitted with 4x 3/4-inch fast cutting corundum wheel. Suitable for grinding small tools, shears, knives, etc. Intended for use in the home or office. Readily attached to table or bench. Axle for wheel, 3/4 inch in diameter. Shpg. wt., about 5 lbs.

99R5536—Price.....\$2.40

HIGH POWER TOOL GRINDER.

Mounted on Steel Frame. \$6.85

A tool every blacksmith, mechanic and farmer should have. Simple and practical in construction, and embodies strength, durability, power and speed. The spindle and pinion of the grinder head are turned and milled from one piece of steel, the larger gear is machine cut and all are enclosed in tight casing, insuring long wear, as dust and dirt from the wheel are excluded. Tool rest is adjustable. Frame is steel and is strongly and substantially put together. Seat is well braced and adjustable to different heights. Equipped with a 6x1 1/4-inch fast cutting corundum wheel of medium grit. Guaranteed to give entire satisfaction. Shipping weight, about 65 pounds.

99R5540—Price.....\$6.85

Emery wheel revolves about 16 times to 1 revolution of the large gear wheel. Gear case 8 1/2 inches in diameter and 1 1/4 inches thick.

Kenwood High Grade Sickle Grinders.

A strong, simple and compact sickle grinder. Is entirely automatic in its grinding movements, the beveled stone moves up and down against the sections, grinding them even and true. Does not grind at any one point long enough to heat or draw temper. Can be adjusted to grind from point to heel or to grind only down to the knife bar. Knife holder works with a lever handle which makes it possible to easily and quickly change the position of the knife for grinding the next section. Made in two styles, one for bench use, the other for use in the field.

\$3.95

\$3.70

99R5532—Kenwood Sickle Grinder for fastening to bench. Shpg. wt., abt 25 lbs. \$3.95

QUALITY BELTING and ACCESSORIES

50c Solid Woven Treated Belting.

Made of hard twisted cotton, woven solid in one piece. Threads go through and through as well as crosswise and lengthwise. There are no stitches to wear out nor piles to come apart. Thoroughly stretched and then treated with a special compound which preserves and strengthens the fiber. It is not affected by heat or cold, is always flexible and thoroughly waterproof. For the purpose of comparison, we call this belt 4-ply and 6-ply, which means that it is about the same thickness and weight as ordinary 4-ply and 6-ply canvas belting. Be sure to state width wanted. **WE CANNOT FURNISH THESE SOLID WOVEN BELTS MADE ENDLESS.**

Nubian Stitched Canvas Belting.

Nubian Belting is made from heavy cotton duck treated with Elastite Compound (sometimes called mineral rubber). This compound acts as a filler and greatly increases the tensile strength of the fabric, absolutely preserving the strength from mildew or decay. Elastite is not only one of the greatest waterproofing materials known, but is also heat resisting and impervious to cold. Nubian Belting remains pliable under all conditions and will not harden or crack. State width.

\$35.00

Nubian Endless Stitched Canvas Belts.

Endless belts listed below are carried in stock and can be shipped promptly from Chicago with other goods. About 3 feet of belt is used in making the splice, making the finished belt about 3 feet shorter than the number of feet you pay for. We can furnish Nubian Endless Belts in the following lengths only:

Length	50 feet	75 feet	100 feet	125 feet	150 feet
Weight, about	30 to 40 lbs.	45 to 60 lbs.	56 to 80 lbs.	70 to 95 lbs.	84 to 120 lbs.

Fulton Circular Saws

\$290 12-In. **\$290**

Are Made of Special Saw Steel of the Correct Gauge or Thickness for the Size and Kind of Saw and With the Proper Number of Teeth as Listed Below.

Saws are evenly tempered, ground on special machinery, and are carefully balanced and tested at full speed. Every Fulton Circular Saw is hand smithed and hand blocked, hand filed and hand set, and sent out ready for use.

Fulton Circular Cut-Off Saws. High speed saws, for use in factories, mills and general wood working plants. State diameter.

Fulton Circular Rip Saws. High speed saws, for use in factories, mills and wood working plants generally. State diameter.

9R5000—Fulton Circular Cut-Off Saws in small sizes.							9R5955—Fulton Circular Cut-Off Saws in large sizes.							9R5001—Fulton Circular Rip Saws in small sizes.							9R5953—Fulton Circular Rip Saws in large sizes.

FULTON CIRCULAR MILL SAWS.

Made to order only and shipped from factory in CHICAGO, usually within ten days. In ordering be sure to give us all specifications of saw desired as mentioned below, so we can make the saw to suit your requirements and avoid the delay which would be necessary if we have to write you for additional information. All saws 40 inches and larger should have 2-inch mandrel holes, with two 3/4-inch pin holes, spaced 3 inches center to center.

IN ORDERING BE SURE TO GIVE ALL SPECIFICATIONS AS FOLLOWS: Number of teeth wanted in saw, gauge at rim, gauge at center, whether spring or swage set, temper, speed, feed, whether to cut hard or soft wood, right or left hand, size of mandrel hole, size and distance center to center of pin holes.

\$7400 50-In.

The Improved Fulton Special Ratchet Bit Brace.

\$2⁷⁵

12-Inch Sweep.

Frictionless Roller Bearings.

9R5428

State size wanted.

Sweep	Weight, About	Price
8 inches	2 1/2 lbs.	\$2.40
10 inches	3 lbs.	\$2.60
12 inches	3 1/2 lbs.	\$2.75
14 inches	3 lbs.	2.95

Frictionless roller bearings. Well made and nicely finished throughout. SWEEP—High grade steel, 1/2 inch in diameter.

HEAD—Select hardwood, steel clad to protect it from being split or bruised. It is attached to the sweep by means of a steel quill that revolves on roller bearings.

HANDLE—Select hardwood, babbitt metal bushings inserted in the end to prevent it from splitting. Revolves on patent adjustable tapered steel collars and bearings. By means of set screws any looseness from wear may be instantly taken up.

RATCHET—Simple in construction, easily operated, strong and durable. The ratchet teeth are cut on the end of the steel body that revolves in the socket attached to the sweep and are concealed and protected by this socket.

SLEEVE—Made of malleable iron, has knurled grip.

CHUCK—Has forged steel jaws. Takes regular square shank bits and round shank bits up to 3/4 inch in diameter. Will take a large size expansive bit.

\$2⁶⁰

10-Inch Sweep.

Ball Bearing Ratchet Brace.

Hardwood head and handle. Cold rolled steel sweep, metal clad ball bearing head. Steel alligator jaws; takes round or square shank bits and drills. State size.

Genuine Arrowsmith LONG HANDLE Cement Workers' Tools

INCREASE OUTPUT—SAVE MAN POWER.

Efficient, sensible, these long handle cement workers' tools enable the workman to stand in a comfortable upright position while at work, thus conserving his energy and increasing his output. The old style short handle cement tools are imitations of plasterers' and bricklayers' tools which cannot be conveniently used by the cement worker, as they necessitate his getting down on all fours like a scrubwoman, thus hampering his work and cutting down his output.

Why continue to work in an uncomfortable, hand-capped position when by using these modern long handle tools you can not only be comfortable, but can accomplish more work with less effort?

Tools are well made throughout. Handles are 6 feet long, adjustable to any height and can be set to any angle. Trowel made of tempered steel, jointer and edger made of iron, nickel plated. Set includes one 24-inch trowel, one jointer, one edger, three long handles, one short handle and one wrench, as illustrated. Shipping weight, per set, about 14 pounds.

STEEL WOOL AND SHAVINGS.

Steel Wool is a mass of fine fibers of steel resembling curled hair, which, while sharp, will not scratch, but cut as smoothly as the finest sandpaper, emery or pumice stone. Used for rubbing down fillers and varnishes. Steel shavings are a coarse grade and used for removing rust from iron preparatory to painting; also for cleaning floors or any surface of old varnish. State grade.

Improved Vulcan Outfit of Blacksmiths' Tools

\$94.50

Especially Recommended for Farmers, Ranchmen and Others Who Have Use for a Reliable Outfit of Good Quality Blacksmiths' Tools.

Each article included in this outfit is fully guaranteed in material and workmanship. The tools are heavy and strong, built for regular everyday shop use, and will give long and satisfactory service.

ANVIL. Solid wrought steel, weight, about 100 pounds. Forged from tough steel. Face is carefully tempered by a process which makes it exceptionally hard without being brittle and very tough without being soft. The horn and heel are long and well shaped. Base has a wide spread insuring great stability and prevents tilting when forging heavy work on the extreme ends of the anvil.

FORGE. Our Improved Vulcan Forge with half hood. Has 12-inch blower, 24 1/2 x 35 1/2-inch hearth, is 30 inches high and weighs about 195 pounds. Will furnish blast enough to produce a welding heat on 3-inch iron in five minutes.

99R5013—Complete outfit, as illustrated and described, Shipping weight, about 500 pounds. Price.....\$94.50

Our Big Masterworkman Blacksmiths' Outfit

THIS OUTFIT WILL TAKE CARE OF THE HEAVIEST WORK, AND CONTAINS ALL THE TOOLS NEEDED BY THE BLACKSMITH AND HORSESHOER. ESPECIALLY FOR HIGH CLASS IRON WORKERS, MEN WHO DEMAND THE BEST.

READ THESE DESCRIPTIONS CAREFULLY.

BLACKSMITHS' HIGH GRADE POST DRILLS

Blacksmiths' Hand Feed Post Drill.

\$6.95

A substantial drill. Upright column and feed screws are made of steel. Has long bearings, which insure easy running. Crank is adjustable. Drill table can be raised or lowered, swung around or removed entirely. Drill is bored for 1/2-inch round shank drills. Has up and down run of 2 3/4 inches. Shipping weight, about 60 pounds.

99R5076—Price, with lag screws for fastening to post...\$6.95

Acme Two-Speed Self Feed Post Drill.

\$10.40

Bearings are of steel. Self feed attachment can be set to fast or slow speed. Crank is adjustable to long or short turn. Drill table can be raised or lowered 3 1/2 inches, swung around or removed entirely. Drills up to 1/2-inch holes and to center of 12-inch circle. Spindle has run of 2 3/4 inches and is bored for 1/2-inch round shank drills. Shpg. wt., about 90 lbs.

99R5077—Price, with lag screws for fastening to post...\$10.40

Blacksmiths' Acme Special Two-Speed Self Feed Post Drill.

\$13.35

Large, heavy drill. Has steel upright column, drill spindle and feed screw, four long straight bearings. Automatic self feeding device can be set fast or slow. Table can be raised or lowered, swung around or removed entirely, and has up and down run of 10 1/2 inches. Spindle has run of 3 inches and is bored for 1/2-inch round shank drills. Drills up to 1 1/4-inch holes and to center of 15-inch circle. Shipping wt., about 120 lbs.

99R5078—Price, with lag screws for fastening to post...\$13.35

Blacksmiths' Acme Ball Bearing Two-Speed Self Feed Third Gear Post Drill.

EASY RUNNING. STRONGLY MADE OF HIGH GRADE MATERIAL.

Made extra strong at points of greatest strain. For general blacksmith and repair shops.

DESCRIPTION. Bearings are made of die steel. Make running easy and double the life of the drill.

Self feed attachment can be set to a fast or slow speed.

Improved third gear enables the operator to change to a fast or slow speed by simply changing the crank from one shaft to another on the same side of the machine.

Drill table is extra heavy, can be raised or lowered 11 inches, swung around or removed entirely.

Shaft and spindle are made of high grade steel. Drills up to 1 1/4-inch holes and to center of 14 1/2-inch circle. Has up and down run of 3 3/4 inches and is bored for 1/2-inch round shank drills. Shipping wt., about 120 pounds.

\$3.90 Set of 8 Round Shank Drills.
Set contains one each 1/16, 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2 inch. Weight, about 2 pounds.

\$2.75 SET OF 6 Round Shank Drills.
Set contains one each 1/16, 1/8, 3/16, 1/4, 5/16, 3/8 inch. Weight, about 1 1/4 pounds.

9R5635—Price, per set...\$3.90

9R5634—Price, per set...\$2.75

STRAIGHT SHANK TWIST DRILLS.

\$8.85 Cannot be used in the ordinary bit brace. Must be used in a chuck made for round shank drills. The shank and twist are the same size. We recommend the purchase of a complete set with stand, as this is the handiest way to keep drills. Stand has a hole for every size drill with size marked near it.

\$7.65

9R5629—Set of 29 Straight Shank Twist Drills, sizes 1/16 to 1/2 inch, by 64ths, mounted on a nickel plated stand as illustrated. Weight, about 6 pounds.

\$3.85
Price, per set...\$3.85

9R5628—Set of 60 Straight Shank Twist Drills, wire gauge sizes 1 to 60, mounted on revolving nickel plated stand as illustrated. Weight, about 4 pounds.

\$7.65
Price per set...\$7.65

Chucks with 1/2-inch shanks to take above straight drills shown on page 1086.

12c 1/8-Inch BIT STOCK DRILLS.

1/4-Inch 21c

These drills fit any bit brace and will drill steel, iron or other metals. Will bore any kind of wood without splitting and are not injured by contact with screws or nails. All drills are ground to micrometer gauge and sizes are exact. Drills 1/2 and larger have solid steel forged shanks, thereby giving increased strength. Points of drills should be kept well oiled when drilling metal. State size wanted.

Tiger Blower

\$17⁰⁰

Dimensions:
Height, 43 inches;
fan case, 11½ in.
in diameter; fan,
8½ in. in diameter.
Shipping wt., about
120 pounds.

Tiger Blower

A high grade blower giving a strong, steady blast. Has flat straight cut gears, steel shafts and composition bearings. Gear case is oiltight and dustproof, permitting gears to run in continuous bath of oil. Blower case can be raised or lowered. Crank turns forward or backward.

99R5001—Price, complete with piping and heavy anti-clinker tuyere, as illustrated \$17.00

Niagara Spiral Geared Ball Bearing Blower

A high grade well finished easy running hand power blower. Develops a steady, powerful blast. Gear case is dustproof and oiltight, permitting gears to run in a continuous bath of oil. Crank turns either forward or backward. Fan case can be raised, lowered or turned in any direction. Shipping wt., about 130 pounds.

99R5002—Price, complete with piping and tuyere, as illustrated \$29.50

Clark's Tuyere Irons.

With dump and shaker. Made of cast iron.
99R5311—Medium size. Shipping wt., about 22 pounds. \$1.45
99R5312—Large size. Shipping weight, about 28 pounds. \$1.95

Norton's Adjustable Blast Tuyere Iron.

Blast regulated by turning large rod; cinders and ashes removed by pulling small rod. Levers and spring can be changed to either side for right or left hand use. Shipping weight, about 25 pounds.
99R5315—Price \$2.05

\$1⁴⁵

Medium
Duck Nest Tuyere Iron.

75c

Made of cast iron.
Shpg. wt., about 13 lbs.

Acme Combination Forge and Blower

\$34⁰⁰

It pays to buy the best. This is the largest and best forge that we sell and we cannot recommend it too highly. It is well made of good material and is of heavy construction throughout. Actual weight is about 270 pounds. Length over all, 53 inches.

Large hearth measures 45x31½ inches. measures 30 inches. Anti-clinker tuyere; tuyere ball furnishes both side and center blast. Blower is powerful and easy to operate, has straight cut flat gears which run in a continuous bath of oil; gear case is oiltight and dustproof. Crank turns either forward or backward. Fan case is 11½ inches in diameter.

99R5036—Acme Combination Crank Forge, with coal box, half hood and tool rest, as illustrated. Shipping weight, about 290 pounds. Price \$34.00

Water Tank.

99R5042—To fit above forge. Shipping wt., about 36 lbs. Price, extra \$4.60

Peerless Combination Forge and Blower.

\$26⁵⁰

With Half Hood.

For the Farmer, Blacksmith, Ranchman, Horseshoer and Boiler Maker.

Capacity to heat 3-inch iron. Size of hearth, 35½x24½ inches; equipped with duck nest fire pot and anti-clinker tuyere.

Has 9-inch blower. Crank turns either forward or backward, has straight cut flat gears which run in a continuous bath of oil. Gear case is oil-tight and dustproof. Height from floor to top of hearth, 30 inches. A forge that will require but little attention and will give you years of satisfactory service.
99R5034—Peerless Combination Forge and Blower, with half hood as illustrated. Shipping weight, about 180 pounds. Price \$26.50
99R5033—Peerless Combination Forge and Blower, with shield. Shpg. wt., about 175 lbs. Price, extra \$24.25

Water Tank.

99R5040—Fits our Peerless forges. Shipping weight, about 18 pounds. Price, extra \$2.10

Whirlwind Forge.

\$11³⁵

With Half Hood.

21-inch hearth, 8½-in. blower. Adjustable lever handle and ratchet clutch. Height from top of hearth to floor, 30 inches. Shipping wt., about 100 lbs.

99R5028—Whirlwind Forge. Price, with half hood as illustrated. \$11.35
99R5027—Whirlwind Forge. Price, with shield \$10.50

Farmers' Big Combination Repair Outfit.

A Big Outfit of 16 High Grade, Useful Tools. Invaluable for Making Quick Repairs in Busy Times. Saves valuable time that would otherwise be spent on the road to and from the blacksmith shop. These tools will enable you to make all ordinary repairs in a few minutes' time. On even a small size farm this outfit will save its first cost many times over.

OUTFIT INCLUDES:

\$18³⁵

Acme American Wrought Anvil

"RINGS LIKE A BELL"

Correct in Temper, Design and Finish. High Grade in Quality, Material and Workmanship.

26c
Per
Pound.

26c
Per
Pound.

Stands the test of the most critical mechanic. The face is true and is carefully tempered by a process which makes it exceptionally hard without being brittle and very tough without being soft. The horn and heel are long and well shaped. The base, having a wide spread, insures great stability and prevents tipping when forging heavy work on the extreme ends of the anvil. State weight wanted.

OUR GUARANTEE

We guarantee the Acme Anvil to be absolutely satisfactory in everyday use, and if after using it in your shop for thirty days you are dissatisfied with it in any way, you may send it back at our expense and get your money back.

Furnished Only in the Following Weights:
Be Sure to State Weight Wanted.

Takes Hardie, Size	1/2 in.	1 in.	1 in.	1 in.	1 in.

NOTE.—Weights of anvils are approximate and vary slightly. When ordering state weight wanted and we will ship nearest weight we have in stock and charge you per pound accordingly.

Mole Tire Shrinker or Upsetter

By means of pin and three holes in end of lever bar, shrinker can be adjusted to take either light or heavy tires. Bringing down lever forces dogs to grasp tire and shrink it, making it shorter without cutting and welding. Made of cast iron, with steel pins, bolts and springs and case-hardened dogs. So proportioned that the weight is distributed at points of greatest strain. Anti-Kink attachment holds tire down, not allowing it to kink or buckle up. We can only furnish sizes 2 and 3 equipped with Anti-Kink, as per list below. Size 1 not made with Anti-Kink attachment. All sizes furnished with iron lever stub for welding to any length handle desired.

\$15³⁵

No. 2 With Anti-Kink. Shrinkers Tires Up to 3 inches Wide.

$\frac{1}{2}$	1.25	1.55	$\frac{3}{4}$	1.55

For Other Twist Drills See Page 1087.

You Can Adjust and Resharp the Dies in These Stocks.

Hercules Adjustable Stocks are fitted with dies that can be adjusted to cut a deep or shallow thread. This is very convenient when threading pipe for old fittings. The dies are quick and easy cutters and can be sharpened on grindstone or emery wheel when worn. Each die has a double taper, forming a lead which causes them to start on the pipe without filing, even when there is a swell or burr.

42R6014—Hercules No. 2 Adjustable Stock and Dies. Threads $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ and 1 inch, right hand. Complete as illustrated. Shipping weight, about 17 pounds. Price, per set.....\$7.20

Extra Pipe Dies, each size, two pieces. Price.....1.20

42R6015—Hercules No. 2 $\frac{1}{2}$ Adjustable Stock and Dies with four dies, cutting $\frac{1}{8}$, $\frac{3}{8}$, 1 and $1\frac{1}{4}$ inches, right hand. Furnished with handles, dies and guides, complete. Shpg. wt., about 23 lbs. Price, per set.....\$8.40

42R6020—Hercules No. 2 $\frac{3}{4}$ Stock and Dies, furnished with dies to thread from $\frac{1}{4}$ to $1\frac{1}{4}$ -inch pipe. Price, per set.....\$12.00

Extra Pipe Dies for either of above numbers, each size, two pieces. Price.....2.10

42R6016 $\frac{1}{4}$ —Hercules No. 3 Adjustable Stock and Dies. Complete with three size dies, cutting $1\frac{1}{4}$, $1\frac{1}{2}$ and 2 inches, right hand. Shipping weight, about 29 pounds. Price, per set.....\$10.80

Extra Pipe Dies, each size, two pieces. Price.....2.70

42R6017 $\frac{1}{4}$ —Hercules No. 6 Adjustable Stock and Dies. Shpg. wt., about 80 lbs. Price, complete with 2 $\frac{1}{2}$ and 3-in. dies. \$27.00

42R6018 $\frac{1}{4}$ —Hercules No. 7 Adjustable Stock and Dies. Shpg. wt., about 100 lbs. Price, complete with 3 $\frac{1}{2}$ and 4-in. dies. \$33.00

NOTICE—All parts of above will interchange with standard makes of Armstrong Stocks and Dies.

Prices quoted on application for dies or guides for 42R6017 $\frac{1}{4}$ and 42R6018 $\frac{1}{4}$ Stock and Dies. When writing be sure to state size wanted.

For Blacksmiths' Die Stocks See Page 1084.

Two Reliable Cutters for Pipe or Tubing.

Saunders Pattern Pipe Cutter.

Wheel cuts groove in pipe and the two rollers roll edges down smooth. Made of malleable iron with tool steel cutting wheel.

42R5996—No. 1. Cuts pipe from $\frac{1}{8}$ to 1 in. Shipping weight, about, pounds.....\$1.50

No. 2. Cuts pipe from 1 to 2 in. Shipping weight, about, pounds.....\$2.25

No. 3. Cuts pipe from 2 to 3 in. Shipping weight, about, pounds.....\$5.50

Extra wheels, each......12 .16 .30

Three-Wheel Pipe Cutter.

Cuts three times as fast as a single wheel cutter. Will cut off a pipe or tube by turning only one-third of the way around. Made of malleable iron with three tool steel cutting wheels.

42R5987—No. 1. Cuts pipe from $\frac{1}{8}$ to 1 in. Shipping wt., about, pounds.....\$1.85

No. 2. Cuts pipe from $\frac{1}{2}$ to 2 in. Shipping wt., about, pounds.....\$2.50

No. 3. Cuts pipe from 1 to 3 in. Shipping wt., about, pounds.....\$4.20

Extra wheels, each......10 .13 .28

Ratchet Drill Sleeve.

Fits 42R6076 Ratchet. This sleeve permits the use of round shank drills. Shpg. wts., about 8 and 12 oz.

42R6077—For $\frac{1}{2}$ -in. round shank drills. \$1.25

42R6078—For $\frac{3}{8}$ -in. round shank drills. 1.30

A Quick and Easy Pipe Threader.

An easy to use, solid die, pipe threading stock for those desiring to do their own pipe fitting, as well as for the plumber or steamfitter. The various dies and guides can be quickly interchanged, they are in one piece and need no adjusting. Stock are made of malleable iron, cutters in dies are tempered tool steel. Guaranteed to cut a clear sharp thread. Nos. 2 and 3 furnished with lead screw, as shown in illustration. Leader screws furnished with other sizes.

42R6000 $\frac{1}{4}$ —No. 0. Threads pipe $\frac{3}{8}$ and $\frac{1}{2}$ inch. Dimensions of dies, 2x $\frac{1}{2}$. Shipping weight, about 6 $\frac{1}{2}$ pounds. Price, complete with dies and guides.....\$4.80

Extra dies, each.....1.20

Extra guides, each......36

42R6001 $\frac{1}{4}$ —No. 1. Threads pipe $\frac{1}{2}$, $\frac{3}{4}$ and 1 inch. Dimensions of dies, 2x $\frac{3}{4}$. Shipping weight, about 13 $\frac{1}{2}$ pounds. Price, complete with dies and guides.....\$6.30

Extra dies, each.....1.20

Extra guides, each......36

42R6002 $\frac{1}{4}$ —No. 1 $\frac{1}{2}$. Threads pipe $\frac{3}{4}$ and 1 $\frac{1}{2}$ inches. Dimensions of dies, 3x $\frac{3}{4}$. Shipping weight, about 14 pounds. Price, complete with dies and guides.....\$5.75

Extra dies, each.....1.20

Extra guides, each......36

42R6003 $\frac{1}{4}$ —No. 1 $\frac{3}{4}$. Threads pipe 1, 1 $\frac{1}{4}$, 1 $\frac{1}{2}$ and 1 $\frac{3}{4}$ inches. Dimensions of dies, 3x $\frac{3}{4}$. Shipping weight, about 23 lbs. Price, complete with dies and guides.....\$10.85

Extra dies, each.....1.20

Extra guides, each......36

42R6005 $\frac{1}{4}$ —Size 3. Threads pipe 2 $\frac{1}{2}$ and 3 inches. Size of dies, 5x1 $\frac{1}{4}$ inches. Shipping weight, about 53 pounds. Price.....\$21.00

Extra dies, ea., \$5.40; extra guides, ea. 1.20

For taps see 42R6060 on this page. They are included at above prices.

For Threading Pump Rod.

42R6095—Pump Rod Stock with two dies for threading $\frac{3}{8}$ and 7/16-inch pump rod, to 42R5620 and 42R5621 rod couplings, shown page 1245. Dies are adjustable, made of tempered tool steel, set in malleable iron stock. Shipping weight, about 2 pounds. Price.....\$3.10

Cuts the Burr Out of Pipe or Tubing Fits Common Bit Brace.

42R6063—Tempered Tool Steel Burring Reamers. For reaming pipe from $\frac{1}{8}$ inch to 1 inch, also countersinking. Shipping weight, about 8 ounces. Price......80

42R6064—For $\frac{1}{2}$ to $1\frac{1}{4}$ -inch pipe. Shipping weight, about 8 ounces. Price.....\$1.20

42R6065—For 1 to 2-inch pipe. Shipping wt., about 3 pounds. Price.....\$2.30

Pipe Thread Reamers and Taps.

42R6060—Tap. Drill the hole, ream it out, tap it and the screw in the pipe. Reamers and taps both made of tempered tool steel and are the same price.

1 1/4 to 1 3/4	13	1.80
1 3/4 to 2	21	4.05

Chainrip Pipe Vise.

The Chainrip Pipe Vise is one of the simplest but most efficient tools of its kind because there are no complicated parts to get out of order. The bolt lugs in the base permit the vise to be moved around the shop. Turn the nut on the eyebolt clamp support, tension on the support chain relaxes, unhook the chain and the vise is loose. The Chainrip Vise is very easy to use. Grip the gripping chain around the pipe, rest the jaws in the toothed jaw. Hook the chain in the socket, push the lever and the vise is securely locked. To loosen the pipe, pull the lever and unhook the chain. Simple and extraordinarily speedy.

42R6169

Pipe	Weight	Price
1/2 in. to 2 1/2 in.	14 lbs.	\$6.65

With soldering copper attachment.

42R1770—Capacity, 1 pint. Shipping weight, about 4 1/2 lbs. Price, \$4.25

42R1771—Capacity, 1 quart. Shipping weight, about 5 1/2 pounds. Price, \$4.65

A Pipe and Monkey Wrench All in One

Genuine Bemis & Call's Nut and Pipe Wrench.

With wrought bar and case-hardened jaws and adjusting nut. Parts easily replaced; furnished with long adjusting nut.

42R6164—10-inch, takes pipe 1/2 to 1 inch in diameter. Shipping wt., about 2 1/2 pounds. Price, \$1.90

12-inch, takes pipe 3/4 to 1 1/4 inches in diameter. Shipping weight, about 4 lbs. Price, \$2.15

15-inch, takes pipe 1 to 2 1/4 inches in diameter. Shipping weight, about 5 1/2 lbs. Price, \$3.05

Genuine Bemis & Call's Short Nut Wrench.

42R6165—Same as 42R6164 at left, except furnished with short adjusting nut instead of long.

Length, 10 inches. Shipping wt., about 2 1/2 pounds. Price, \$1.75

Length, 12 inches. Shipping wt., about 3 1/2 pounds. Price, \$1.95

Length, 15 inches. Shipping wt., about 5 pounds. Price, \$2.75

They Hold Tight and Withstand the Strain. Brock's Pipe Wrench.

Forged from bar steel, with removable jaw. Teeth are milled and tempered. Chain made of special steel. Guaranteed against defects.

42R6167 1/4

Size 1. Will hold pipe 1/2 to 2 inches; length, 20 inches. Shipping weight, about 5 pounds. Price, \$2.65

Size 2. Will hold pipe 3/4 to 3 inches; length, 27 inches. Shipping weight, about 9 pounds. Price, \$3.85

Size 3. Will hold pipe 1 to 6 inches; length, 37 inches. Shipping weight, about 24 pounds. Price, \$5.40

Gasoline Brazing Torch.

With soldering copper attachment. Heavily constructed. Neat, compact design. No pump. Pressure created by gasoline vaporizing. Gives 1,800 degrees heat under proper conditions. Suitable for all purposes for which an intense heat is required. Can be held in any position. Copper plated steel container with oxyacetylene welded joints; adapted for rough usage. Capacity, 1/4 pint. Shipping weight, about 4 1/2 pounds.

42R1772—Price \$5.90

Plumbers' Gasoline Blast Furnace and Camp Stove.

Easy to generate. Compact, well made and reliable. Lift off top and furnace makes a very satisfactory camp stove for cooking, frying, etc. Produces a hot blue flame. Melts lead or solder quickly. Made of steel. Reservoir has welded seams. Shipping weight, about 12 pounds.

42R1768 1/4—Price \$4.95

Melting Pot not included in above price.

Heats soldering irons and melts lead or solder at the same time. Compact. Reliable. Has new type burner, designed for outdoor or indoor use, with swivel joint so it can be turned to horizontal or vertical position. Hood can be removed by loosening one thumb screw and tank with burner used separately. Reservoir holds 3 quarts of gasoline and is made of pressed steel with welded seam and connection. Fitted with brass filler plug and improved brass pump with needle stop valve. Hood has cover, soldering iron rest and wind shield. Height, 12 inches; diameter, 8 1/4 inches. Shipping weight, about 11 pounds.

42R1767 1/4—Price \$8.75

Combination Gasoline Furnace.

To fit 42R1767 1/4 and 42R1768 1/4 Furnaces. Shipping weight, about 4 pounds.

42R1769—Price \$2.00

Stillson Pipe Wrench.

An old, reliable pipe wrench used by plumbers and steamfitters everywhere. Made of good quality tool steel, nicely finished; 6 and 8-inch wrenches fitted with wood handle; 10, 14, 18, 24, 36 and 48-inch fitted with steel handle. These Stillson wrenches are high grade in every respect, made to stand hard and rough usage.

Combination Suction Cleaner and Sweeper

This machine goes the vacuum cleaner one better, the motor driven brush sweeping up tight clinging lint and brushing up heavy dirt which might otherwise cling even under strong suction. Nozzle, with its 1 1/2 x 1 1/2-inch opening, rests directly on the rug and carries a protector guard to prevent marring the furniture. The brush, as shown below, is driven by a belt from the motor. (Illustration shows belt exposed, but it is completely covered by a cap.) A small lever throws brush gears out of mesh without stopping motor, allowing use of machine as a suction cleaner only. The body is black finished steel. The whole machine is light, weighing only 11 pounds, and is equipped with rubber tired wheels, 3 1/4 inches in diameter. Shipping weight, about 15 lbs.

6R9807 1/4—Combination Suction and Brush Cleaner, for use on ordinary city alternating current of 105 to 115 volts. Price (shipped from factory, all charges prepaid) \$49.50

6R9806 1/4—Cleaner, same as above, but for 32-volt current. Price, shipped prepaid..... \$50.00

Attachments for Cleaner 6R9807 1/4.

Will enable you to thoroughly clean furniture, bedding, clothes, walls and wall hangings. For blowing as well as sucking out dirt. Full directions furnished.

National Automatic Stropping Machine and Strop. No experience required to strop any razor or blade. Place razor in the holder, grasp each end of the strop and as the strop is pulled over the rollers, it is automatically drawn across the razor. This is a strop that will give satisfaction and last for a long time. The machine is 3 3/4 inches long, 1 1/4 inches wide and 2 3/4 inches high, nickel plated. Strop is first quality grain leather. Shipping weight, 10 ounces.
6R6514—Price.....96c

Diagonal Stroke Stropping Machine and Strop. Quick Edge Diagonal Stroke Stropping Machine and Strop. Puts the correct edge on any old style razor or safety razor blade. This machine stropps a razor with a uniformly diagonal stropping stroke, which is the correct method. The blade moves up and down in the holder, and the strop laterally across the razor edge, thus giving a keen, smooth shaving edge. The machine is nickel plated. The strop is of first quality grain leather. Treated to quickly put razor or blade in good shaving condition. Shipping weight, 1 pound.
6R6524—Price, complete...\$1.89

Wilbert High Quality Razor Strop.
The sharpening side of the strop is made of black selected leather, treated by a process which gives sharpening qualities. There is no grit or emery in this strop to injure the razor.
The finishing strop is made of fine shell horsehide. Oil tanned, soft and flexible; requires no breaking in. Sewed leather handles with gilt embossed lettering and large gold plated swivel and ring clutch. A serviceable and practical strop. Length, 23 inches; width, 2 1/4 inches. Shipping weight, 1 pound 1 ounce.

It

Send Today for This Book

THE lighting is a most important feature of a well appointed home. Our new Lighting Fixture Catalog illustrates a comprehensive line of Lighting Fixtures, embodying the latest ideas in modern illumination. It also contains a complete selection of standard electrical house wiring materials, lighting glassware and portable lamps. It will pay you to send for this catalog. Quality should be considered when buying lighting fixtures. Quality is the foundation of our line, and our liberal guarantee protects you.

**Our Light-
ing Fixture
Catalog also
lists:**

Acetylene Gas
Burners
Brackets
Cleats
Clusters
Conduits
Desk Lamps
Domes
Drop Cords
Floor Lamps
Glassware

Have you been thinking of putting a new lighting fixture in your living room or dining room, something to replace the old one that's an eyesore to you? Or is the lighting of the bedroom bad, making it hard to see how to dress? Why not put that new fixture in right away?

Perhaps you have a house or an apartment to rent or sell. Why not make it more beautiful and valuable by installing attractive Lighting Fixtures? The increase in the rent or sale price will pay for the fixtures many times over.

Our electric fixtures are properly con-

structed and wired for use with either city current or any home lighting plant.

Our fixtures are shipped to you completely assembled, wired ready to hang, fitted with "NOTORCH" attachments, which enables you to install them without the use of a soldering torch or any tools other than a screwdriver.

Don't delay—write today for your copy of our new Lighting Fixture Catalog. We will send it to you free. Take advantage of our low prices and order your lighting fixtures at your earliest opportunity.

**Our Light-
ing Fixture
Catalog also
lists:**

Joints
Outlet Boxes
Plugs
Receptacles
Rubber Covered
Wire
Shades
Sockets
Switches
Table Lamps
Tungsten
Lamps

Our fixtures are approved by the Underwriters' Laboratories, Inc., under the direction of the National Board of Fire Underwriters, and each and every fixture bears their stamp of approval in the form of a serial numbered label.

Our Famous Crystalline Bells

GUARANTEED FOR FIVE YEARS AGAINST BREAKAGE.
Celebrated for their volume of sound and for their loud, clear, round and sweet tone. These bells are cast from a special mixture of metal of high quality. Thousands of schools, churches and factories use our crystalline bells with perfect satisfaction.

We allow sixty days' trial on every Crystalline Bell we sell. During this period you can give it a thorough trial, compare it in tone, volume and quality with composition bells of any other make, and to you every cent you paid for it and freight charges.

We guarantee these bells for five years against breakage and should any part break through defect in material or workmanship, we will furnish a new part to replace the broken one, or, if necessary, an entire new bell without extra charge.

Our schoolhouse, factory and church bells are all of the same general design. Thirty-eight-inch and larger bells are mounted on roller bearings. These bearings enable one person to ring our largest bells with as great ease and regularly as ringing a small bell. Bells 24 inches and larger are fitted with our improved springs and clapper, which insures a full stroke of the clapper without the possibility of a second stroke. Iron rope wheels are furnished with 20 to 30-inch bells and sectional wood rope wheels with 38 to 48-inch bells. Tolling hammer is furnished with church bells.

Prices are for the bells complete with frame, wheel and wood sills. Shipped from factory in CENTRAL OHIO.

Illustration Shows a Church Bell.

X-L-ALL Poultry and Rabbit Netting.

Shipped from our fencing factory at KNIGHTSTOWN, IND., or from our warehouse at KANSAS CITY, MO.

We recommend this netting for all purposes where a fabric lighter than regular field fencing will serve the purpose, yet something stronger and more durable than ordinary poultry netting is desired. It is closely spaced at bottom, the spaces between line wires being graduated from 1 1/2 inches at the bottom to 4 1/2 inches at the top, as shown in the illustration. Vertical stay wires are spaced about 4 1/2 inches apart. This netting can be stretched between posts without any top or bottom rail, and makes a stiff, tight fence. The heavy top and bottom line wires and the interlocked stay wires hold up the fabric and prevent sagging. This netting is made in two widths.

The standard grade is for poultry yards only. The top and bottom line wires are No. 14, and the intermediate line wires and the vertical stay wires are No. 18 hard galvanized steel wire.

The heavy grade is heavy enough to use for a light fencing around gardens and orchards, but is lighter than our X-L-ALL Poultry and Farm Fencing listed in our Big Catalog, and is not intended to serve as regular farm fencing. The top and bottom line wires of the heavy grade are No. 14, and the intermediate line wires and vertical stay wires are No. 18 hard galvanized steel wire.

Sold only in 10-rod bales.

Our Wizard Tubular Frame Grindstone.

Our Price, \$6.95

Guaranteed to give complete satisfaction.

Shpg. wt., about 115 pounds.

A grindstone of extra quality at a price that means a substantial saving. The Wizard is well made, easy running, carefully fitted and well finished throughout.

DESCRIPTION.
Heavy Tubular Steel Frame. Four Genuine Bronze Bearings. Quality Free Cutting Stone. Adjustable Seat With Guard. Large Water Can.

99R1191—Price.....\$6.95

EXPRESS RATES

Your express agent will tell you the exact rates from Chicago to your home town and give you full information in reference to their delivery service. If there is no express agent at your shipping point you must send money to prepay express charges. If there is an agent you can pay the express charges when shipment reaches you. It is necessary to prepay only when there is no agent at your station.

HOW TO FIGURE EXPRESS CHARGES

First estimate the weight of goods you are ordering; then find the rate per 100 pounds by express to your nearest city in the Table of Rates below; then consult the Scale of Express Charges, following the line for the weight of your goods to the column headed by your express rate per 100 pounds, and the amount shown will be the express charges.

Tables showing the Express Rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used as a basis for figuring rates for all the towns in the immediate vicinity of each city.

If the exact rate per 100 pounds to your town is not shown in any of the headings of this scale, take the rate shown for the town nearest you and the express charges will be about the same as to your town. The table of Express Rates also shows the parcel post zone of the various cities named below, enabling you to make an approximate comparison between the express charges and the parcel post charges to the zone in which you live. For Parcel Post Rates see page 693.

FREIGHT RATES

Table showing the freight rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used by the railroads as a basis for figuring rates for all the towns in the immediate vicinity of each city.

RAILROAD COMPANIES FIGURE FREIGHT RATES WITH THE LARGER CITIES IN EACH STATE AS A BASIS. All other towns located in the same part of the state as any one of these cities take practically the same rate or only a few cents per 100 pounds more or less than the rate to the larger city.

Please consult the following Table of Rates, considering it in connection with the classification of merchandise, and you will be able to determine easily, almost exactly, what the freight will amount to on any goods. If your station is not named in this table, the rate to your station will be very nearly the same as the rate to the nearest city named, or you may ask your freight agent.

CLASSIFICATION OF MERCHANDISE FOR FREIGHT SHIPMENTS.

You will notice in the Freight Table below there are four different rates quoted to each city, first class, second class, third class and fourth class. This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rate which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

FOUR TIMES FIRST CLASS	FIRST CLASS	FIRST CLASS	FIRST CLASS	SECOND CLASS	THIRD CLASS
Row Boats (East and South)	Ammunition (South)	Graphophones	Wagon Wheels (East and West)	Oilcloth	Stump Pullers (East R25)
Row Boats (West)	Automobile Repairs	Harness and Saddlery	Animal Traps	Oils (East)	Tools (East)
THREE TIMES FIRST CLASS	Awings	Horse Clipping Machines (South)	Bedsteads	Plumbing Material	Vises (East R26)
Drums (musical)	Baby Carriages (South)	Incubators (West and South)	Bob Sleds (West)	Pulleys	Windmills (East R25)
Reed Chairs (East and West)	Bathtubs	Ladders (West and South)	Chinaware (East and West)	Refrigerators	Wire Fencing (East R26)
Row Boats (West)	Bob Sleds (East)	Lamps	Concrete Block Machines (West)	Sewing Machines (South)	FOURTH CLASS
DOUBLE FIRST CLASS	Books	Loaded Gun Shells (South)	Cream Separators	Tools (West and South)	Anvils
Buggies (54-in. crates) (East)	Brooders	Milk Cans (West and South)	Crockery (West)	Vacuum Cleaners	Chick Feed and Scratch Feed (West). See page 617.
Cameras (West)	Buggies (34-in. crates) (West and South)	Morris Chairs	Dressers (South)	Wagons, Children's (West)	Concrete Block Machines (South)
Dress Forms	Cameras (East and South)	Notions	Extension Tables	Wall Paper	Crockery (South)
Reed Chairs (South)	Camera Supplies	Oil Stoves	Feed Troughs, Cast or Wrought Iron	Hand Washing Machines	Grindstones with Frames (South)
Road Carts	Carpets	Pianos and Organs	Porches (East and South)	Woodenware	Paints (West and South)
Sleds, Children's (West)	Chinaware (South)	Pictures	Gasoline Engines (East)	Wringers	Poultry Food
1 1/2 TIMES FIRST CLASS	Cigars	Rubber Goods	Glassware (East R25)	Wheelbarrows	Prepared Roofing (East R26)
Baby Carriages (East and West)	Clocks	Sewing Machines (West and East)	Graniteware	Church, School and Farm Bells (East R25)	Steel Roofing
Bicycles	Clothing	Sorting Goods	Grindstones with Frames (West)	Crockery (East R26)	Steel Siding
Buggies (34-in. crates) (East)	Couches	Stationery	Hardware (West and South)	Farm Implements (East R25)	Stock Food
Buggies (54-in. crates) (West and South)	Curtains	Tents	Horse Clipping Machines (West and East)	Gasoline Engines (South)	Wagons, Farm (South)
Desks (East)	Dresses (East and West)	Trunks (West and South)	Incubators (East)	Grindstones with Frames (East R26)	Wagon Wheels (South)
Milk Cans (East)	Dry Goods	Valises	Ladders (East)	Hardware (East)	Wire, Plain or Barbed
Sleds, Children's (East and South)	Electrical Goods	Wagons, Children's (East and South)	Linoleum	Iron Pots and Kettles	FIFTH CLASS
Trunks (East)	Fire Arms	Wagons, Farm (East and West)	Loaded Gun Shells (West and East)	Iron Safes	Chick Feed and Scratch Feed (East). See page 617.
	Forges (West)			Oils (West and South)	Chick Feed and Scratch Feed (South). See page 617.
	Gasoline Engines (West)			Paints (East)	
				Stoves and Ranges (Cast Iron)

WE GUARANTEE

that each and every article in this catalog is exactly as described and illustrated.

We guarantee that any article purchased from us will satisfy you perfectly; that it will give the service you have a right to expect; that it represents full value for the price you pay.

If for any reason whatever you are dissatisfied with any article purchased from us, we expect you to return it to us at our expense.

We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.

Five Money Saving Catalogs for Builders

How to Place Running Water in Your Home

Send for our Catalog of Modern Plumbing and see how little it will cost you to install a few of the conveniences you have long wanted. We shall be glad to help you plan and to give you any estimate you wish. In our catalog, besides a splendid line of bathtubs, lavatories, sinks, water closets and other fixtures and fittings, at prices as attractive as the goods themselves, we also list pumps, water supply systems, engine accessories and supplies, plumbers' and steamfitters' tools. The quality is there; we guarantee the goods. At the same time we can show you worth while savings in prices.

With every fixture we furnish full and complete directions for installing. You can put in the plumbing yourself, and save that much more.

How to Place Modern Heating in Your Home

Write for our Catalog of Modern Heating Systems, sent free on request. It describes interestingly the comparative advantages of Hot Water, Steam and Warm Air Heating (we sell all three systems), illustrates and describes our splendid line of boilers, furnaces, radiators, registers, etc., and will give you a clear idea of the solid comfort you can buy from us for a very reasonable amount. Why live in two or three rooms during the Winter when you can easily heat every room in the house with less trouble and inconvenience?

Not only do our prices mean considerable savings, but with each plant we also furnish working drawings and directions which will enable anyone who is handy to install the plant. This means that you need not pay extra for skilled labor.

Send for "Modern Heating Systems."

Floor Registers, Borders and Faces.

Black Japanned Register.

White Japanned Face.

Registers, black japanned. Made with cast iron top and steel body. Fit borders of the same dimensions. Borders not included in price of registers. When used as ceiling ventilators the borders are not required, but a white face 42R62262 should be ordered with each register.

Borders, cast iron, black japanned. Match registers described above. Measurements are inside.

Register Faces, cast iron, white japanned. Used in ceilings and side walls as ventilators.

Write for Our Floor Tile Color Book—Free on Request.

23c and Upward a Square Foot for Tile, According to Design and Colors.

We want you to know you can have a beautiful ceramic mosaic tile floor in your vestibule, bathroom, or any other room at the astoundingly small cost of 23 cents a square foot, ready for laying. The greatest opportunity of the age for owning a beautiful aseptic, sanitary floor at prices never dreamed of before, a floor that will outwear the house itself.

Fireproof, sanitary and the cleanliest floor ever laid. The prettiest bathroom floor you ever saw when laid in pure white.

Send for our Ceramic Mosaic Floor Tile Color Book, where we tell you all about the simple method of preparing, leveling and laying ceramic mosaic floor tile; how any workman who can level a Portland cement bed can lay the floor.

DO YOU USE CEMENT?

If you use cement or concrete for any purpose you should have a copy of our Special Concrete Machinery Catalog. It describes in full a complete line of Concrete Mixers, Sidewalk Forms and equipment for making concrete building blocks, brick, fence posts, tile, porch and balustrade material, chimneys and other products. It also tells you much about the use of cement and the manufacture of concrete products and will prove a valuable source of information for anyone interested in this work. Every machine or mold is sold on trial and is fully guaranteed by us.

Be sure to send us a letter or postal card and ask for this Special Concrete Machinery Catalog.

Fireplace Hardware

Send for our latest catalog of fireplace furnishings, including wood, brick and all tile mantels and all accessories for the fireplace and hearth. We show a very limited selection of fixtures here and if you are interested it will pay you to send for the catalog. We have an exceptionally fine line of solid brass andirons and other fixtures that will be sure to please you. The catalog is free and a request on a postal card will bring it to you.
